

# Assignment 8

You must watch the following tutorials: [processing - tutorials](#) and follow the steps explained in this link to setup your project: [getting started processing](#)

## Exercise 1 (3pt)

Create a Processing class that displays you NetId in red in the middle of the screen. You should provide the source code and a screenshot of the results.

## Instructions

The solution of the exercises must be provided as a **java** (for the code, do not submit class files), **png** (for eventual screenshot), and **pdf** (for eventual text) files. The **files must be zipped** together before upload.

**Assignments not respecting these instructions will be ignored.**
